

# STONEHAGE FLEMING WORLDWIDE FLEXIBLE PRESCIENT FUND

OUR FOUR FUNDAMENTAL QUALITY  
PILLARS - IDENTIFYING GLOBAL BEST  
OF BREED BUSINESSES

## INVESTMENT OBJECTIVE

The portfolio will aim to maximize total return for investors by way of a flexible worldwide portfolio actively investing across equities and cash, both locally and internationally.

The Fund has adhered to its policy objective.

## INVESTMENT PHILOSOPHY

We invest in best of class businesses for their quality, strategic competitive edge and value.

## FUND COMMENTARY

The leap month delivered a strong Dollar return of +4.3% for the MSCI ACWI Index. Equity markets have been supported predominantly by US inflation continuing to drift lower, US consumer confidence further strengthening, their economy remaining resilient and a positive US earnings season.

This relatively benign backdrop, with a general perception of a 'soft landing' US economy this year, result in a stable US bond market. Our view is that the Federal Reserve can bide its time to lower their target rate, but that this overall combination of capital market factors can continue to support growth equities.

There continues to be little reason for material optimism on the possibility of a sustained recovery of the Chinese economy. Geopolitical and various national election risks continue to affect investor sentiment. Whilst the Red Sea attacks may only impact around 12% of world trade, it does delay the availability of containers with the result being rising shipping costs with potential for some inflationary risks.

Whilst the overall S&P 500 earnings season delivered only a marginal positive result, the standout positive contributions came from the Communications, Discretionary, Industrial and Financial sectors. Included amongst these, good results were delivered by many Technology related businesses. Our Fund benefitted in this context (e.g. Alphabet, Amazon). On the reverse, Energy, Materials and Health Care detracted from index results. Our Health Care names, though, delivered well on this front (e.g. Stryker, Edwards Lifesciences, UnitedHealth). ASML and Cadence Design Systems delivered well for us in the Technology sector.

A positive factor from China currently is the sharp recovery in the number of their international travellers (+37% since November). This bodes well for luxury goods (e.g. LVMH) and cosmetics (e.g. L'Oréal, Estée Lauder) businesses.

The best contributors to the February performance have been Amazon, Microsoft and ASML. The largest detractors were Shoprite, Adobe and PSG.

Data sourced from Bloomberg.

Opinions expressed represent the view of SFIM at the time of preparation. They are subject to change and should not be interpreted as investment advice.

Past performance is not a guide to future performance.

<sup>1</sup> For periods longer than one year, returns are annualised. Source for all performance is Prescient, Bloomberg and Stonehage Fleming Investment Management Limited as at 31/12/23. Third parties (including Bloomberg and Financial Express) whose data may be included in this document do not accept any liability for errors or omissions.

<sup>2</sup> Fund Inception Date: 1 July 2009.

<sup>3</sup> These are the highest or lowest consecutive 12-month returns over 10 years. This is a measure of how much the Fund's returns have varied per rolling 12-month period. The Fund's highest annual return occurred during the 12 months ended 30 June 2014 and The Fund's lowest annual return occurred during the 12 months ended 31 December 2022.

## INVESTMENT STRATEGY

- Invest for sustainable growth
- Fundamental research driven
- Particular focus on quality of management, balance sheet strength, return on invested capital, free cash flow, ability to grow dividends each year
- Bottom-up approach to identify exceptional businesses
- Global orientation, with emerging market exposure
- High conviction concentrated portfolio
- Predominantly larger capitalisation businesses, include some mid-size exceptional ones
- Buy to hold, disciplined selling
- No benchmark orientation, no active trading, no leverage, no hedging

## ASSET ALLOCATION

82.7%  
Global Equity

16.4%  
South African Equity

1.0%  
South African Cash

There were no material changes in the composition of the portfolio during the month

**FEES<sup>2</sup>**

Minimum Investment (Platform)	No Minimum
Minimum Investment (Direct)	R 10,000,000
Maximum Initial Advice Fee	N/A
Maximum Annual Advice Fee	1.15%
Investment Manager Initial Fee	N/A
Annual Management Fee	1.43%
Total Expense Ratio (TER)	1.43%
Transaction Costs (TC)	0.14%
Total Investment Charges (TIC)	1.57%

<sup>2</sup> Advice fees are negotiable between the client and their adviser. Annual advice fees are paid through a re-purchase of units from the investor. The fund is available through certain LISPs which levy their own fees. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The Estimated Transaction Costs (TC) displayed, which is calculated using data for the period 1 January 2023 to 31 December 2023 is higher than the expected TC of the fund due to (a) the high trading costs incurred following Stonehage Fleming Investment Management acquiring Rootstock Investment Management, and high trading volumes as the portfolio was rebalanced and (b) brokerage firms with higher trading costs being used. The estimated actual TC payable by a client investing into the fund today would be 0.02%, which brings the estimated TIC down 1.45%. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER. Disclosed performance information is calculated after all fees and costs deducted. All fees inclusive of VAT where applicable.

**DISCLOSURES AND ADDITIONAL INFORMATION**

This document is for information purposes only and does not constitute or form part of any offer to issue or sell or any solicitation of any offer to subscribe for or purchase any particular investments. Opinions expressed in this document may be changed without notice at any time after publication. We therefore disclaim any liability for any loss, liability, damage (whether direct or consequential) or expense of any nature whatsoever which may be suffered as a result of or which may be attributable directly or indirectly to the use of or reliance upon the information.

Management Company: Prescient Management Company (RF) (Pty) Ltd. This portfolio operates as a white label fund under the Prescient Unit Trust Scheme, which is governed by the Collective Investment Schemes Control Act.

This document has been issued by Stonehage Fleming Investment Management (South Africa) (Pty) Ltd (authorised and regulated in South Africa, FSP No: 42847) and by Stonehage Fleming Investment Management Ltd (authorised and regulated in the UK by the FCA: 194382, and in South Africa by the FSCA, FSP No: 46194).

Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CIS's are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not

include information gathered over a full year. Transaction Costs (TC) is the percentage of the value of the Fund incurred as costs relating to the buying and selling of the Fund's underlying assets. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, investment decisions of the investment manager and the TER.

The Manager retains full legal responsibility for any third-party-named portfolio. Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees. Please note that all documents, notifications of deposit, investment, redemption and switch applications must be received by Prescient by or before 13:00 (SA), to be transacted at the net asset value price for that day. Where all required documentation is not received before the stated cut off time Prescient shall not be obliged to transact at the net asset value price as agreed to. Funds are priced at either 3pm or 5pm depending on the nature of the Fund. Prices are published daily and are available on the Prescient website.

Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available from the manager on request.

For any additional information such as fund prices, brochures and application forms please go to [www.prescient.co.za](http://www.prescient.co.za)

This portfolio operates as a white label fund under the Prescient Unit Trust Scheme, which is governed by the Collective Investment Schemes Control Act.

The Management Company and Trustee are registered and approved under the Collective Investment Schemes Control Act (No.45 of 2002). Prescient is a member of the Association for Savings and Investments South Africa.

**DISCLOSURES AND ADDITIONAL INFORMATION**

**Alpha:**

Denoted the outperformance of the fund over the benchmark.

**Sharpe Ratio:**

The Sharpe ratio is used to indicate the excess return the portfolio delivers over the risk free rate per unit of risk adopted by the fund.

**Standard Deviation:**

The deviation of the return stream relative to its own average.

**Max Drawdown:**

The maximum peak to trough loss suffered by the Fund since inception.

**Max Gain:**

Largest increase in any single month

**% Positive Month:**

The percentage of months since inception where the Fund has delivered positive return.

**Average Duration:**

The weighted average duration of all the underlying interest bearing instruments in the Fund.

**Average Credit quality:**

The weighted average credit quality of all the underlying interest bearing instruments in the Fund (internally calculated).

**Dividend Yield:**

The weighted average dividend yield of all the underlying equity in the Fund. The dividend yield of each company is the dividends per share divided by the price.

**PE Ratio:**

The weighted average price earnings ratio of all the underlying equity in the Fund. The price earnings ratio of each company is the price divided by the earnings per share.

**High Water Mark:**

The highest level of performance achieved over a specified period.

**Annualised performance:**

Annualised performance shows longer term performance rescaled to a 1-year period. Annualised performance is the average return per year over the period. Actual annual figures are available to the investor on request.
