

# STONEHAGE FLEMING GLOBAL BEST IDEAS EQUITY FUND

OUR FOUR  
FUNDAMENTAL  
QUALITY PILLARS -  
IDENTIFYING  
GLOBAL BEST IN  
CLASS BUSINESSES

## INVESTMENT OBJECTIVE

To achieve long-term growth in capital and income in a focused portfolio of high quality listed businesses from around the world.

## INVESTMENT PHILOSOPHY

We invest in best in class businesses for their quality, strategic competitive edge and value.

## FUND COMMENTARY

2023 started on a positive footing. Investor perception is that US inflation is largely under control and that the Federal Reserve's hiking task is getting into its endgame for this cycle. The US bond market has stabilized and China's re-opening provides more comfort that this year, its economy can provide more support to world trade and the global economy. Holding high cash levels, some asset managers have started utilising some of the opportunities that the bear market is presenting.

Whilst we are strategically minded long-term investors, we believe our portfolio is well positioned for this improved, but still very uncertain economic environment. We are true bottom-up investors, and in the process of seeking sustainable long-term growth, have invested in best quality businesses with particularly strong macro themes. Our Health Care businesses can benefit for long from the structural growth theme and long waiting lists. The process of de-globalisation and re-shoring offers particular investment opportunities. Some businesses enjoy high recurring revenues and have less concerns about an uncertain economic outlook. Almost all of our holdings are truly global operators with a balanced spread of geographical exposures, and specifically a c. 30% exposure to emerging markets, whose economies may do better this year. Many of our holdings benefit directly from China's re-opening, with their consumer market, which is in process of being revitalised, having huge catch-up potential. With the higher interest rate environment, many of our holdings benefit from their large net cash positions, earning interest levels they have not enjoyed for a long time. We expect these themes to strongly support our portfolio performance this year.

The best contributors to performance in January were LVMH, Alphabet and ASML. Each of them benefit directly from some of the above themes. The main detractors to performance were PepsiCo, Colgate-Palmolive and Becton Dickinson.

## RISK DISCLOSURE

Past performance is not a guide to future performance. The value of investments can fall. Investors may not get back the amount invested. Income from investments may vary and is not guaranteed. The return may increase or decrease due to currency fluctuations. Performance figures are net of fees and charges. The Fund may hold a relatively small number of stocks as compared to many other funds. This may make the Fund's performance more volatile than would be the case if it had a more diversified investment portfolio.
