

# STONEHAGE FLEMING GLOBAL BEST IDEAS EQUITY PRESCIENT FEEDER FUND

OUR FOUR FUNDAMENTAL QUALITY  
PILLARS - IDENTIFYING  
GLOBAL BEST IN CLASS BUSINESSES

## INVESTMENT OBJECTIVE

The Fund is a feeder fund investing only in the Stonehage Fleming Global Best Ideas Equity Fund (“Master Fund”), managed by Stonehage Fleming Investment Management Limited in the United Kingdom. The Master Fund seeks to achieve long-term growth in capital and income in a focused portfolio of high quality listed businesses from around the world.

*The Fund has adhered to its policy objective.*

## INVESTMENT PHILOSOPHY

We invest in best in class businesses for their quality, strategic competitive edge and value.

## FUND COMMENTARY

Value as an investment style continued outperforming Quality in October. Continuing strong US employment data and rising bond yields reflected a resilient economy. Stock market volatility increased amid the run-up to the too-close-to-call US election and rising geopolitical tensions in the Middle East.

The third quarter US reporting season is well under way. Over two thirds of the S&P 500 have already reported. Overall, the Index’s top and bottom line numbers grew at +5% and +8% respectively. These are +1% and +6% positive surprises. Communication, Discretionary and Health Care sectors delivered the best results, with Energy, Industrials and Materials the worst.

A main feature of the results has been the strong operational performance of the US technology giants, and in particular Alphabet and Amazon. They impressed with both their top and bottom line results, and specifically with their cost controls, operational margin increases and strong growth in free cash flows. Along with this, all the main cloud businesses impressed with accelerating organic growth, with +35%, +33% and +19% respectively for Google Cloud, Azure and AWS. Whilst they enjoy strong AI-related business growth, their high capital expenditures do not yet dent profitability, while their free cash flows continue to comfortably cover these expenses.

The best contributors to the Fund’s performance over October have indeed been AI-related. Cadence Design Systems declared +30% growth in bottom line earnings, benefitting from the semiconductor boom. Alphabet and Amazon were the next two best contributors. ASML, L’Oréal and LVMH were the largest detractors from performance. Whilst ASML declared a positive turn in revenues and profits, they disappointed with a low order book that indicates a postponement to their bumper profit growth. L’Oréal and LVMH announced soft sales updates, predominantly as a result of a continuing weak Chinese consumer market.

Stock markets have traditionally been volatile before US elections, with more constructive performances following afterwards.

*Data sourced from Bloomberg.*

*Opinions expressed represent the view of SFIM at the time of preparation. They are subject to change and should not be interpreted as investment advice.*

1 For periods longer than one year, returns are annualised. Source for all performance is Bloomberg, MSCI and Stonehage Fleming Equity Management as at 31/10/2024. Third parties (including Bloomberg) whose data may be included in this document do not accept any liability for errors or omissions.

2 Fund Inception Date: 1 November 2018.

3 These are the highest or lowest consecutive 12-month returns over a 10 year period (or since inception where the performance history does not exist for 10 years). This is a measure of how much the Fund’s returns have varied per rolling 12-month period. The Fund’s highest annual return occurred during the 12 months ended 31 January 2020 and The Fund’s lowest annual return occurred during the 12 months ended 31 December 2022.

## INVESTMENT STRATEGY

- Invest for sustainable growth
- Fundamental research driven
- Particular focus on quality of management, balance sheet strength, return on invested capital, free cash flow, ability to grow dividends each year
- Bottom-up approach to identify exceptional businesses
- Global orientation, with emerging market exposure
- High conviction concentrated portfolio
- Predominantly larger capitalisation businesses, also consider exceptional medium-sized ones
- Buy to hold and disciplined selling
- No benchmark orientation, no active trading, no leverage, no hedging

### FEES<sup>3</sup> (CLASS BI ZAR)

Minimum investment	R 65,000,000
Advice Initial Fee (max)	N/A
Advice Annual Fee (max)	N/A
Investment Manager Initial Fee	N/A
Investment Manager Annual Fee (Feeder Fund)	0.15%
Investment Manager Annual Fee (Master Fund)	0.75%
Total Expense Ratio (TER)	0.96%
Transaction Costs (TC)	0.01%
Total Investment Charges (TIC)	0.97%

<sup>1</sup> The main fund this feeder fund is investing in is a non-distributing fund, hence no income may be available for distribution

<sup>3</sup> Advice fees are negotiable between the client and their adviser. Annual advice fees are paid through a re-purchase of units from the investor. The fund is available through certain LISPs which levy their own fees. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER. Disclosed performance information is calculated after all fees and costs deducted. All fees inclusive of VAT where applicable.

## IMPORTANT INFORMATION

A **Feeder Fund** is a portfolio that invests in a single portfolio of a collective investment scheme which levies its own charges, and which could result in a higher fee structure for the feeder fund.

This document has been issued by Stonehage Fleming Investment Management (South Africa) (Pty) Ltd (authorised and regulated in South Africa, FSP No: 42847) and by Stonehage Fleming Investment Management Ltd (authorised and regulated in the UK by the FCA: 194382, and in South Africa by the FSCA, FSP No: 46194).

Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CIS's are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year. Transaction Costs (TC) is the percentage of the value of the Fund incurred as costs relating to the buying and selling of the Fund's underlying assets. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be

considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, investment decisions of the investment manager and the TER.

The Manager retains full legal responsibility for any third-party-named portfolio. Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees. Please note that all documents, notifications of deposit, investment, redemption and switch applications must be received by Prescient by or before 13:00 (SA), to be transacted at the net asset value price for that day. Where all required documentation is not received before the stated cut off time Prescient shall not be obliged to transact at the net asset value price as agreed to. Funds are priced at either 3pm or 5pm depending on the nature of the Fund. Prices are published daily and are available on the Prescient website.

Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available from the manager on request.

For any additional information such as fund prices, brochures and application forms please go to [www.prescient.co.za](http://www.prescient.co.za)

This portfolio operates as a white label fund under the Prescient Unit Trust Scheme, which is governed by the Collective Investment Schemes Control Act.

The Management Company and Trustee are registered and approved under the Collective Investment Schemes Control Act (No.45 of 2002). Prescient is a member of the Association for Savings and Investments South Africa.

## DEFINITIONS

### Annualised performance:

Annualised performance shows longer term performance rescaled to a 1-year period. Annualised performance is the average return per year over the period. Actual annual figures are available to the investor on request.

### Highest & Lowest return:

The highest and lowest returns for any 1 year over the period since inception have been shown.

### NAV:

The net asset value represents the assets of a Fund less its liabilities.
