**GLOBAL BEST IDEAS EQUITY FUND**

OUR FOUR  
FUNDAMENTAL  
QUALITY PILLARS -  
IDENTIFYING  
GLOBAL BEST IN  
CLASS BUSINESSES

## INVESTMENT OBJECTIVE

To achieve long-term growth in capital and income in a focused portfolio of high quality listed businesses from around the world.

## INVESTMENT PHILOSOPHY

We invest in best in class businesses for their quality, strategic competitive edge and value.

## FUND COMMENTARY

Value as an investment style continued outperforming Quality in October. Continuing strong US employment data and rising bond yields reflected a resilient economy. Stock market volatility increased amid the run-up to the too-close-to-call US election and rising geopolitical tensions in the Middle East.

The third quarter US reporting season is well under way. Over two thirds of the S&P 500 have already reported. Overall, the Index's top and bottom line numbers grew at +5% and +8% respectively. These are +1% and +6% positive surprises. Communication, Discretionary and Health Care sectors delivered the best results, with Energy, Industrials and Materials the worst.

A main feature of the results has been the strong operational performance of the US technology giants, and in particular Alphabet and Amazon. They impressed with both their top and bottom line results, and specifically with their cost controls, operational margin increases and strong growth in free cash flows. Along with this, all the main cloud businesses impressed with accelerating organic growth, with +35%, +33% and +19% respectively for Google Cloud, Azure and AWS. Whilst they enjoy strong AI-related business growth, their high capital expenditures do not yet dent profitability, while their free cash flows continue to comfortably cover these expenses.

The best contributors to the Fund's performance over October have indeed been AI-related. Cadence Design Systems declared +30% growth in bottom line earnings, benefitting from the semiconductor boom. Alphabet and Amazon were the next two best contributors. ASML, L'Oréal and LVMH were the largest detractors from performance. Whilst ASML declared a positive turn in revenues and profits, they disappointed with a low order book that indicates a postponement to their bumper profit growth. L'Oréal and LVMH announced soft sales updates, predominantly as a result of a continuing weak Chinese consumer market.

Stock markets have traditionally been volatile before US elections, with more constructive performances following afterwards.

The Fund may hold a relatively small number of stocks as compared to many other funds. This may make the Fund's performance more volatile than would be the case if it had a more diversified investment portfolio. STONEHAGE FLEMING  
**GLOBAL BEST IDEAS EQUITY FUND**

**OUTCOME OF FAIR VALUE ASSESSMENTS (2023)**

Our assessment confirms:

- The fund meets the needs of the target market.
- The intended distribution strategy remains appropriate.
- The fund provides fair value to customers.

**INVESTOR PROFILE**

The fund is appropriate for all investor types, including those with only a basic knowledge of funds. It is compatible with investors who do not need a capital guarantee (investors must be prepared to accept fluctuations in the value of capital, including the ability to bear 100% capital loss) and are seeking capital growth. Due to the volatility of markets, investors should be willing to accept price fluctuations in exchange for the opportunity of potentially higher returns. This is a long term investment and investors should have an investment time horizon of at least 5 years. The recommended holding period does not provide any guarantee that the objective will be achieved. This product is eligible for all distribution channels (e.g. investment advice, portfolio management, non-advised sales and pure execution services).

The fund is unlikely to be appropriate for those who:

- Are looking for full capital protection or full repayment of the amount invested, and those who want a guaranteed return
- Have no risk tolerance
- Who are unwilling to accept price fluctuations (volatility) in the value of the fund
- Do not intend to invest for the long term
