PORTFOLIO MANAGER PERFORMANCE

PORTFOLIO COMMENTARY

The Global Balanced Portfolio returned 0.4% in October, taking 2024 returns to 7.6% so far.

Global markets were mixed in October as the global economy remained resilient despite continued signs of slowing in the manufacturing sector, labour market and wages. Additionally, concerns about the pace of future growth and potential policy shifts weighed on sentiment. Equities were volatile, as concerns about slowing economic momentum led to a decline in global small-cap stocks. After a positive start of the month, emerging markets faced headwinds from a stronger US dollar and uncertainty around China's stimulus measures. In the fixed income market, US bond yields climbed as investors weighed the possibility of higher inflation from protectionist trade policies.

Among equities, notable outperformers included Sector Healthcare, which benefitted from promising clinical trials from Gilead Sciences and a favourable regulatory ruling for Bristol-Myers. Elsewhere, our US Small Cap strategy, Driehaus, marginally lagged its benchmark following stock specific issues with Carvana and TransMedics. Similarly, Veritas Asia fell following weaker China stimulus detail. Stonehage Fleming Global Best Ideas has softer performance than its benchmark indices, largely due to weaknesses in ASML, L'Oreal and LVMH. Their holdings in Alphabet saw strong results.

INVESTOR PROFILE

The fund is appropriate for all investor types, including those with only a basic knowledge of funds, it is compatible with investors who do not need a capital guarantee (investors must be prepared to accept fluctuations in the value of capital, including the ability to bear 100% capital loss) and looking for capital growth.

Due to the volatility of markets, investors should be willing to accept price fluctuations in exchange for the opportunity of potentially higher returns. This is a long term investment. Investors should have an investment time horizon of at least 5 years. The recommended holding period does not provide any guarantee that the objective will be achieved. This product is eligible for all distribution channels (e.g. investment advice, portfolio management, non-advised sales and pure execution services).

The fund is unlikely to be appropriate for those who:

- Are looking for full capital protection or full repayment of the amount invested, and those who want a guaranteed return
- Have no risk tolerance
- Who are unwilling to accept price fluctuations (volatility) in the value of the fund
- Do not intend to invest for the long term
