## FUND COMMENTARY

The Fund returned 4.0% during the quarter versus the estimated benchmark return of 3.9%. US equities continued to outperform other regions and did so to some degree, whilst Japan and emerging markets struggled. Technology companies performed well, particularly semiconductor and tech hardware businesses, as did some of the more defensive sectors, such as Utilities and Consumer Staples. Areas of the market that underperformed included Communication Services, Financials and Energy. On a style basis, high quality businesses outperformed, but it was fairly balanced between lowly valued and high growth businesses; this was particularly the case in the US.

Our strategies which fared better on a relative basis in the quarter included Stonehage Fleming Global Best Ideas Fund (GBI), Fidelity Emerging Markets and Polar Global Insurance. GBI had a good quarter with several of its healthcare (Zoetis, Thermo Fisher) and consumer businesses (Estee Lauder, LVMH) performing well. Fidelity benefitted from a number of its copper related positions outperforming (First Quantum, Grupo Mexico). Finally,

property and casualty insurance had a better quarter which supported our holding in Polar Global Insurance.

The key relative detractors during the quarter included Edgewood, Stonehage Fleming European All Cap and Sector Healthcare. Our US Growth manager, Edgewood, saw some of its top performers in recent years lose ground, such as Snap, which was impacted by Apple privacy changes. Stonehage Fleming European All Cap underperformed as European Value did poorly in general, but also particular positions in the food industry struggled. Sector Healthcare suffered from having more in the small and mid-cap names and not holding some of the larger quality players, such as Eli Lilly and Novo Nordisk.

In terms of activity, two new US positions were introduced into the strategy - Artisan US Focus and Driehaus US Small Cap. The former is a US thematic manager with a good track record within US large cap, whilst Driehaus is focused on investing in innovative US smaller companies. Capital was recycled from other US positions in Edgewood, Findlay Park, as well as some ETF exposure.
