INVESTMENT OBJECTIVE

The Fund aims to achieve capital growth over the longer term by investing in companies that are progressively becoming more sustainable therefore creating a portfolio that is aligned to the UN Sustainable Development Goals¹.

MANAGER PERFORMANCE HIGHLIGHTS

The fund had a positive quarter in sterling terms for Q4, but fell in US dollar terms due to sterling weakening against the dollar over the quarter. Global equity performance was primarily driven by US stocks, which were bolstered by the outcome of the US presidential election. Considering this, our top performers for the quarter were the Amundi S&P 500 Climate Net Zero and the Findlay Park American Fund, both outperformed global markets due to their high allocation to US equities.

The impact-focused areas of the portfolio delivered returns behind our broader less thematically focused strategies. Despite this, several small-cap, impact-focused companies such as Joby Aviation (electric aircraft), and Rivian (electric vehicles) achieved impressive returns. At the beginning of the quarter, we divested from our global impact strategy, Regnan, which proved beneficial as the fund continued to decline. Proceeds were reallocated across the existing holdings.

Our investment philosophy for the strategy leads us to hold less in harmful areas. This was helpful in Q4 as oil and gas companies underperformed on subdued China demand and supply remaining resilient. We also believe the risks remain tilted to the downside in 2025 as the incoming US administration favours additional US supply and a prompt resolution to the Ukraine/Russia conflict. Both of which would likely put downward pressure on energy prices and lead to lower earnings for oil and gas companies.

OUTCOME OF FAIR VALUE ASSESSMENTS (2024)

Our assessment confirms:

- The Fund meets the needs of the target market.
- The intended distribution strategy remains appropriate.
- The Fund provides fair value to customers.

INVESTOR PROFILE

The Fund is appropriate for all investor types, including those with only a basic knowledge of funds. It is compatible with investors who do not need a capital guarantee (investors must be prepared to accept fluctuations in the value of capital, including the ability to bear 100% capital loss) and are looking for capital growth. Due to the volatility of markets, investors should be willing to accept price fluctuations in exchange for the opportunity of potentially higher returns. This is a long term investment and investors should have an investment time horizon of at least 5 years. The recommended holding period does not provide any guarantee that the objective will be achieved. This product is eligible for all distribution channels (e.g. investment advice, portfolio management, non-advised sales and pure execution services).

The Fund is unlikely to be appropriate for those who:

- Are looking for full capital protection or full repayment of the amount invested, and those who want a guaranteed return
- Have no risk tolerance
- Who are unwilling to accept price fluctuations (volatility) in the value of the Fund
- Do not intend to invest for the long term

RISK PROFILE

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up. The Fund may enter into derivative agreements with counterparties, and consequently there is a risk that a counterparty may fail to meet its obligations. This may lead to delays in the Fund receiving amounts due to it, receiving less than is due or receiving nothing. Investments in underlying funds contain the same market and liquidity risks associated with the underlying investments. The Fund may be subject to a liquidity risk due to the manner and timing of potential redemptions from the underlying funds. Underlying funds may be entitled to delay acceptance of redemption requests or payment of redemption proceeds from the Fund. The Fund may be subject to valuation risk due to the manner and timing of valuations of the Fund's investments.

Sustainability Risk - The Fund may be subject to sustainability risk, meaning an environmental, social or governance ("ESG") event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of an investment. For full details of the Fund's risks, please see the prospectus and supplement sections entitled 'Risk Factors'.

IMPORTANT INFORMATION

This is a marketing communication. Please refer to the prospectus and the KIID of the UCITS before making any final investment decisions. The Global Responsible Investment Fund (GRIF) changed its name from the Global Sustainable Equity Fund (GSEF) on the 1st December 2022. The distribution or possession of this document in jurisdictions outside the United Kingdom may be restricted by law or other regulatory requirements. The Fund intends to invest principally in a range of underlying collective investment schemes. Please refer to the prospectus for details of the investment policy.

All investments risk the loss of capital. No guarantee or representation is made that the Fund will achieve its investment objective. The value of investments may go down as well as up and, for products designed to return income, the distributions can also go down or up and you may not receive back the full value of your initial investment. Derivatives may be used for efficient portfolio management. The Fund invests in assets which are denominated in other currencies; hence changes in the relevant exchange rate will affect the value of the investment. Past performance is not a guide to future returns. If the information is not displayed in your base currency, then the return may increase or decrease due to currency fluctuations.

The Fund promotes environmental and social characteristics and has been classified by the Manager, working in conjunction with the Investment Manager, as a product in accordance with Article 8 of the Sustainable Finance Disclosure Regulations ("SFDR").
