INVESTMENT OBJECTIVE

The fund aims to achieve long-term capital growth.

INVESTMENT POLICY

The Fund aims to invest mainly in equities on the UK Alternative Investment Market ('AIM'). This will be achieved by an actively managed diversified portfolio of shares spread across any sector of AIM. In addition, the Fund may on occasion invest in fully listed shares of companies with smaller market capitalisations.

PORTFOLIO COMMENTARY

The incoming Labour Government have hit the road running and adopted a responsible tone. Rachael Reeves, the Chancellor of the Exchequer, after consultation with Office for Budget Responsibility (OBR), claimed that there was a £21.9 billion overspend by the previous Conservative Government which needed to be funded. In a surprise move she announced that the winter fuel subsidy is to be removed from the majority of recipients and further funding measures would be announced in the Autumn Statement on 30 October. It was reconfirmed that there would be no change in income tax, corporation tax, national insurance and VAT meaning that some capital projects could be abandoned or deferred. It has also been speculated that there could be changes in capital gains tax, inheritance tax and pensions. The Prime Minister stated that the priority was to grow the economy with wealth creation the aim but it would not happen overnight and there would be some tough decisions. On an encouraging note, Sterling has been strong and the Bank of England base rate was reduced from 5.25% to 5%. The Monetary Policy Committee (MPC) voted on this change despite inflation rising from 2% to 2.2% by the year end. Although there is an element of uncertainty moving forward, investment sentiment has not changed and the majority of companies are looking to the future with confidence.

August was a quieter month where we only made a small number of reductions and additions with nothing of great significance. In our view the portfolio remains well positioned and would benefit from any further interest rate cuts in coming months but this depends upon inflation being kept under control at a time when the Government has been awarding significant pay awards in the public sector. Global factor including the war in Ukraine and conflicts in the Middle East could be an unsettling factor but, equally, any solution would bring welcome relief.

PERFORMANCE DISCLOSURE

Past performance is not a guide to future performance. All investments risk the loss of capital. Investors may not get back the original amount invested. Income from investments may vary and is not guaranteed. Performance figures are net of fees and charges. For a full list of risks applicable to this fund, please refer to the Prospectus.

The fund holds a broad range of AIM listed companies and some of these carry a higher risk of failure and may be less liquid than shares listed on other exchanges. These shares may be also harder to sell quickly because of this lower liquidity. AIM listed companies may also experience greater price volatility which could also affect the value of the fund.

Source for all performance is Stonehage Fleming Investment Management Limited as at 31 August 2024. Total return (with dividends reinvested) is net of fees.

OUTCOME OF FAIR VALUE ASSESSMENTS (2023)

Our assessment confirms:

- The fund meets the needs of the target market.
- The intended distribution strategy remains appropriate.
- The fund provides fair value to customers.

INVESTOR PROFILE

The fund is appropriate for all investor types, including those with only a basic knowledge of funds. It is compatible with investors who do not need a capital guarantee (investors must be prepared to accept fluctuations in the value of capital, including the ability to bear 100% capital loss) and are seeking capital growth. Due to the volatility of markets, investors should be willing to accept price fluctuations in exchange for the opportunity of potentially higher returns. This is a long term investment and investors should have an investment time horizon of at least 5 years. The recommended holding period does not provide any guarantee that the objective will be achieved. This product is eligible for all distribution channels (e.g. investment advice, portfolio management, non-advised sales and pure execution services).

The fund is unlikely to be appropriate for those who:

- Are looking for full capital protection or full repayment of the amount invested, and those who want a guaranteed return
- Have no risk tolerance
- Who are unwilling to accept price fluctuations (volatility) in the value of the fund
- Do not intend to invest for the long term

IMPORTANT INFORMATION

This is a marketing communication issued by Stonehage Fleming Investment Management Limited (SFIM). SFIM is the investment manager of the Fund. All investments risk the loss of capital. No guarantee or representation is made that the funds will achieve their investment objective. The value of investments may go down as well as up. For products designed to return income, the distributions can also go down or up and you may not receive back the full value of your initial investment. Derivatives have not been used but are allowed if appropriate for efficient asset management. The Fund only invests in UK assets but is allowed to hold shares on overseas exchanges. This would occur in the event of a company delisting from the London stock market and would not be expected to be material. Hence, there would be limited foreign exchange risk. Past performance is not a guide to future returns. If the information is not displayed in your base currency, then the return may increase or decrease due to currency fluctuations. The distribution or possession of this document in jurisdictions outside the United Kingdom may be restricted by law or other regulatory requirements. For details of the Funds investment policy, please see the Investment Objective and Policy section of the Fund Prospectus Document.
