He then joined Cavendish Asset Management at the group's formation in 1994. The acquisition of Cavendish Asset Management was made by Stonehage Fleming in July 2020. This partnership made a compelling proposition and after 27 years at Investec he joined Cavendish Asset Management in November 2017 to jointly manage the funds. The acquisition of Cavendish Asset Management was made by Stonehage Fleming in July 2020. Nick is the co-manager of the TM Stonehage Fleming Aim Fund and the TM Stonehage Fleming Opportunities Fund.

PORTFOLIO COMMENTARY

The Numis Alternative Markets (including Investment Companies) Index increased by just 1.8% in the month and it is therefore pleasing that the TM Stonehage Fleming AIM Fund performed well and advanced by 7.0% to reflect that we were not holding many of the larger AIM-listed companies which underperformed within the index.

We had reasonable liquidity having sold our interest in Scapa at the end of the previous month following a takeover approach and also sold the remainder of our holding in AssetCo where the potential looked to have been achieved. We started a new holding in Breedon Group which produces a large number of aggregates, asphalt and concrete and is seeing a robust recovery in demand for products. Other new holdings included Watkin Jones (rental property and student accommodation developer) and Secure Income (leisure property investment and development) which we have held in the past. Purplebricks is the other new holding, which we have not held in the past. The online estate agent has reorganised itself in the last two years and is set for profitable growth.

In the UK, there are indications that the COVID-19 vaccine rollout programme is likely to lead to the country returning to more normal conditions as the year progresses, and we have found that BREXIT has created more opportunities than problems for the companies which we follow. A positive factor to future performance of the fund is the sharp rise in oil and gas prices where we have exposure to that sector. Healthcare and Technology stocks have driven performance, and results have generally been very positive. A negative factor to some companies is the relative strength of Sterling which is mainly attributable to weakness in the US dollar. Against this, many such companies are seeing organic growth coupled with recovery in trading and the restoration of dividend payments which will send out a sign of confidence. Hospitality, retail and leisure could take time to recover but we have little exposure to these areas. In summary, we feel the TM Stonehage Fleming AIM Fund is well placed moving forward.

IMPORTANT INFORMATION

Derivatives have not been used but are allowed if appropriate for efficient asset management. The Fund only invests in UK assets but is allowed to hold shares on overseas exchanges. This would occur in the event of a company delisting from the London stock market and would not be expected to be material. Hence, there would be limited foreign exchange risk.

The fund invests in AIM listed companies, which can carry a higher risk of failure and be less liquid than shares listed on other exchanges. These may experience greater price movements and wider spreads (difference between the buying and selling prices) which could affect the value of the fund.
