INVESTMENT OBJECTIVE

The fund aims to achieve long-term capital growth.

INVESTMENT POLICY

The Fund aims to invest mainly in equities on the UK Alternative Investment Market ('AIM'). This will be achieved by an actively managed diversified portfolio of shares spread across any sector of AIM. In addition, the Fund may on occasion invest in fully listed shares of companies with smaller market capitalisations.

PORTFOLIO PERFORMANCE

PORTFOLIO COMMENTARY

The AIM market generally had a nervous month on fears the Rachael Reeve, the Chancellor of the Exchequer, would remove Inheritance Tax (IHT) on shares listed on that market. In the event she reduced the benefit by 50% meaning an effective tax rate of 20%. Although not the ideal outcome it still leaves incentive for companies to list on AIM. Of particular interest, the measure to bring inherited pensions into taxation might lead to the encashment of pensions to switch in AIM listed shares thereby reducing the death duty levy from 40% to 20%. Understandable, now that the uncertainty has been lifted and an investment incentive remains the AIM indices had a strong rise. The other factor to affect investors was the rise in capital gains tax rate from 20% to 24% for higher rate tax payers. This was widely leaked before the Budget but was less than many expected and is still well below the 40% higher rate for Income tax. Consequently, it leaves an incentive for the investment in shares. Equally, legislation into ISAs remained unchanged with the annual amount of contribution frozen at £20,000. Elsewhere, increasing the National Insurance charge on companies and a raise in minimum wage could be negative factors to be absorbed but at least Corporation tax was unchanged. The Labour Party are looking to grow the economy by increasing spending and it is hoped that this policy bears fruit. In the meantime, Sterling has remained reasonably firm and the inflation rate is near the level where the Monetary Policy Committee (MPC) is in the position to cut interest rates.

October was an active month where we were able to make a number of changes to take advantage of market levels. We reduced several of our larger holdings which had held up well and disposed of our remaining holding in Synectics (surveillance systems) following outperformance and Marlowe (compliance services) after it divested its interest in Optima Health (occupational health). The most significant addition was to Optima Health which looks to have exciting growth prospects as a "stand alone" company. Now that budget uncertainties have been removed we would expect investor interest to return to smaller companies and particularly AIM listed ones which still offer IHT benefits. A reduction in interest rates would be beneficial and we feel that the fund is well placed moving forward.

PERFORMANCE DISCLOSURE

Past performance is not a guide to future performance. All investments risk the loss of capital. Investors may not get back the original amount invested. Income from investments may vary and is not guaranteed. Performance figures are net of fees and charges. For a full list of risks applicable to this fund, please refer to the Prospectus.

The fund holds a broad range of AIM listed companies and some of these carry a higher risk of failure and may be less liquid than shares listed on other exchanges. These shares may be also harder to sell quickly because of this lower liquidity. AIM listed companies may also experience greater price volatility which could also affect the value of the fund.

Source for all performance is Stonehage Fleming Investment Management Limited as at 31 October 2024. Total return (with dividends reinvested) is net of fees.

OUTCOME OF FAIR VALUE ASSESSMENTS (2023)

Our assessment confirms:

- The fund meets the needs of the target market.
- The intended distribution strategy remains appropriate.
- The fund provides fair value to customers.

INVESTOR PROFILE

The fund is appropriate for all investor types, including those with only a basic knowledge of funds. It is compatible with investors who do not need a capital guarantee (investors must be prepared to accept fluctuations in the value of capital, including the ability to bear 100% capital loss) and are seeking capital growth. Due to the volatility of markets, investors should be willing to accept price fluctuations in exchange for the opportunity of potentially higher returns. This is a long term investment and investors should have an investment time horizon of at least 5 years. The recommended holding period does not provide any guarantee that the objective will be achieved. This product is eligible for all distribution channels (e.g. investment advice, portfolio management, non-advised sales and pure execution services).

The fund is unlikely to be appropriate for those who:

- Are looking for full capital protection or full repayment of the amount invested, and those who want a guaranteed return
- Have no risk tolerance
- Who are unwilling to accept price fluctuations (volatility) in the value of the fund
- Do not intend to invest for the long term

IMPORTANT INFORMATION

This is a marketing communication issued by Stonehage Fleming Investment Management Limited (SFIM). SFIM is the investment manager of the Fund. All investments risk the loss of capital. No guarantee or representation is made that the funds will achieve their investment objective. The value of investments may go down as well as up. For products designed to return income, the distributions can also go down or up and you may not receive back the full value of your initial investment. Derivatives have not been used but are allowed if appropriate for efficient asset management. The Fund only invests in UK assets but is allowed to hold shares on overseas exchanges. This would occur in the event of a company delisting from the London stock market and would not be expected to be material. Hence, there would be limited foreign exchange risk. Past performance is not a guide to future returns. If the information is not displayed in your base currency, then the return may increase or decrease due to currency fluctuations. The distribution or possession of this document in jurisdictions outside the United Kingdom may be restricted by law or other regulatory requirements.
