PAUL MUMFORD

PORTFOLIO MANAGER

Paul Mumford has extensive investment experience. Having worked initially as an Analyst for Norris Oakley Brothers and later as a smaller companies expert at R Nivison, he moved to fund management in 1988 when he joined Glenfriars. He then joined Cavendish Asset Management at the group's formation in 1994. The acquisition of Cavendish Asset Management was made by Stonehage Fleming in July 2020. Paul is the comanager of the TM Stonehage Fleming Aim Fund and the TM Stonehage Fleming Opportunities Fund.

PORTFOLIO MANAGER

NICK BURCHETT

Nick Burchett began his career in 1983 at Strauss Turnbull and subsequently joined W.I. Carr in 1990 which later became Investec Wealth & Investment after a number of mergers and acquisitions. During this period Nick dealt extensively with Paul Mumford on the analysis of UK equities, markets and execution factors. This partnership made a compelling proposition and after 27 years at Investec he joined Cavendish Asset Management in November 2017 to jointly manage the funds. The acquisition of Cavendish Asset Management was made by Stonehage Fleming in July 2020. Nick is the co-manager of the TM Stonehage Fleming Aim Fund and the TM Stonehage Fleming Opportunities Fund.

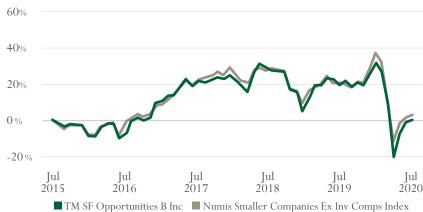

INVESTMENT OBJECTIVE

The fund aims to achieve long-term capital growth.

INVESTMENT POLICY

There is no geographical restriction but in practice the fund will be mainly invested in the UK.

PORTFOLIO COMMENTARY

In July, the TM Stonehage Fleming Opportunities Fund performance was as follows:

- \bullet 'B' share class returned 3.9%
- 'C' share class returned 3.9%
- 'L' share class returned 4.0%
- 'Y' share class returned 4.0%

This performance was against the Numis Smaller Companies Ex-Investment Companies Index returning 1.2%.

It is pleasing to see the significant outperformance in the month, where a number of the companies produced positive results. To some extent this reflects a relief for the end of lockdown but also that a number of companies had suffered less than initially feared. In fact, some companies actually benefited and exceeded prelockdown expectations.

We have added to Elementis, the specialist chemical company and Senior, the aircraft component manufacturer, as both share prices have suffered from profit downgrades after COVID-19 order delays. Two new holdings were added to the

IMPORTANT INFORMATION

Derivatives have not been used but are allowed if appropriate for efficient asset management. The Fund only invests in UK assets but is allowed to hold shares on overseas exchanges. This would occur in the event of a company delisting from the London stock market and would not expected to be material. Hence, there would be limited foreign exchange risk.

The fund can invest in AIM shares, which can carry a higher risk of failure and be less liquid than shares listed on other exchanges. These may experience greater price movements and wider spreads (difference between the buying and selling prices) which could affect the value of the fund.

portfolio and we took advantage of share placings. Both are AIM listed medical related companies. Scapa supplies fixations to medical and industrial markets and Totally provides outsourcing services to departments within the NHS. Money was raised from a reduction in our holding in Rockrose Energy, which, following the offer for the company, had increased in value to around 10% of the fund's AUM.

The UK stock market recovered from its low point but is still below its peak. Many companies ceased to issue guidance on future earnings and a large number passed or deferred dividends. We have found that the majority of smaller companies have weathered the storm and have had the flexibility to adapt to the changing economic conditions. In fact, in some cases it has been possible for companies to exploit some further growth opportunities whilst making these changes.

The TM Stonehage Fleming Opportunities fund has a good exposure to industrial markets, including some FTSE 100 shares which show good prospects of recovery and are currently showing signs of being unduly depressed. There continues to be a reasonable presence in the oil and gas sector, which in our opinion, offers strong long term growth potential. Elsewhere we feel well placed with the other holdings in the portfolio and look to the future with confidence, but are mindful that a second wave of COVID 19 and BREXIT could bring some bumps in the road.
