THE INTERNATIONAL FAMILY OFFICE

COOKIE NOTICE

JULY 2019

INTRODUCTION

Stonehage Fleming uses cookies on its website: www.stonehagefleming.com You can find out more about cookies and how to control them in the information below.

WHAT IS A COOKIE?

Cookies are text files containing small amounts of information which are downloaded to your computer or mobile device when you visit a website. Cookies are then sent back to the originating website on each subsequent visit, or to another website that recognises that cookie. Cookies are useful because they allow a website to recognise a user's device.

Cookies do lots of different jobs, like letting you navigate between pages efficiently, remembering your preferences, and generally improving the user experience. They can also help to ensure that information you see online is more relevant to you and your interests.

For further information on cookies visit www.allaboutcookies.org.

WHAT COOKIES DO WE USE ON OUR WEBSITE

The types of cookies used on this website may be classified into one of three categories: necessary cookies, analytics cookies and marketing cookies.

1. Necessary cookies

We use necessary cookies to let our website run smoothly. These cookies provide the user with functionality that includes allowing you to navigate between pages, see error messages and protect any information that you decide to send to us.

	Name of necessary cookie	Purpose	Persistent or session	Duration	Set by	Type
1	exp_csrf_token	Provides security and ensures that a form being submitted is authentic.	persistent	1 day	Webserver	HTTP
2	exp_expiration	Determines when to expire the cache on a webpage.	persistent	1 day	Webserver	HTML
3	exp_flash	Carries any error message across to other webpages.	persistent	1 day	Webserver	HTTP
4	exp_perpage	Determines how many entries to display on the page	session	session	Webserver	HTTP
5	exp_sessionid	ID of the database session.	session	session	Webserver	HTTP
6	exp_last_activity	Every time the state is updated	persistent	1 year	Webserver	HTTP

		(the page reloaded) the last activity is set to the current datetime. Used to determine expiry.				
7	PHPSESSID	Preserves user session state across page requests.	session	NA	Webserver	HTTP
8	cookies_cs	Saves user preferences regarding consent to which cookies are set.	persistent	1 year	Webserver	HTTP
9	cookies_cs0	Saves user preferences regarding consent to which cookies are set.	persistent	1 year	Webserver	HTTP
10	cookies_cs1	Saves user preferences regarding consent to which cookies are set.	persistent	1 year	Webserver	HTTP
11	cookies_cs2	Saves user preferences regarding consent to which cookies are set.	persistent	1 year	Webserver	HTTP

2. Analytics cookies

Analytics cookies provide us with information on how you use our website so that we may provide more relevant information to you, as well as additional information that is directly related to the content you are browsing.

	Name of analytics cookie	Purpose	Persistent or session	Duration	Set by	Type
1	cuvon	Used to determine when the visitor last entered the different subpages on the website.	persistent	1 day	ClickDimensions	HTTP
2	cuvd	Used to collect information on a visitor. This information will	persistent	2 years	ClickDimensions	HTTP

		become an ID string with information on a specific visitor. ID information strings can be used to target groups with similar preferences, or can be used by third-party domains or ad-exchanges.				
3	cusid	Used to identify the frequency of visits and how long the visitor is on the website.	persistent	1 day	ClickDimensions	HTTP
4	i/jot/syndication	Used by Twitter	session	session	Twitter	Pixel
5	_gid	Registers a unique ID that is used to generate statistical data on how the visitor uses the website.	session	24 hours	Google Analytics	HTTP
6	Local_storage support_test	Used in context with the local-storage function in the browser allowing the website to load faster by pre-loading certain procedures.	persistent	persistent	Twitter	HTML
7	_ga	Registers a unique ID that is used to generate statistical data on how the visitor uses the website.	persistent	2 year	Google Analytics	HTTP
8	_widgetsettings	Used by Twitter	persistent	persistent	Twitter	HTML
9	_gat	Used by Google Analytics to throttle request rate.	persistent	1 day	Google Analytics	HTTP
10	exp_last_visit	Contains information on	persistent	1 year	Webserver	HTTP

		what date the user last visited the website. Used to generate statistical data.				
11	exp_tracker	Tracks the sequence of URLs visited to build viewing profile.	session	session	Websserver	HTTP

3. Marketing cookies

Marketing cookies allow you to, when you leave our website, view adverts that are relevant to your interests.

	Name of marketing cookie	Purpose	Persistent or session	Duration	Set by	Type
1	r/collect	Used to send data to Google Analytics about the visitor's device and behaviour. It tracks the visitor across devices and marketing channels.	session	session	Google Analytics	Pixel
2	DSID	Allows visitors who go to Vimeo after visiting and outside the Stonehage Fleming domain to see relevant adverts.	session	session	DoubleClick (via Vimeo)	HTML
3	IDE	Allows visitors who go to Vimeo after visiting and outside the Stonehage Fleming domain to see relevant adverts.	persistent	2 years	DoubleClick (via Vimeo)	HTML
4	Vuid	Identifies a user playing videos.	persistent	2 years	Vimeo	HTTP
